

# CT-SC20W (2.0m Truss Scrim)

## FEATURES

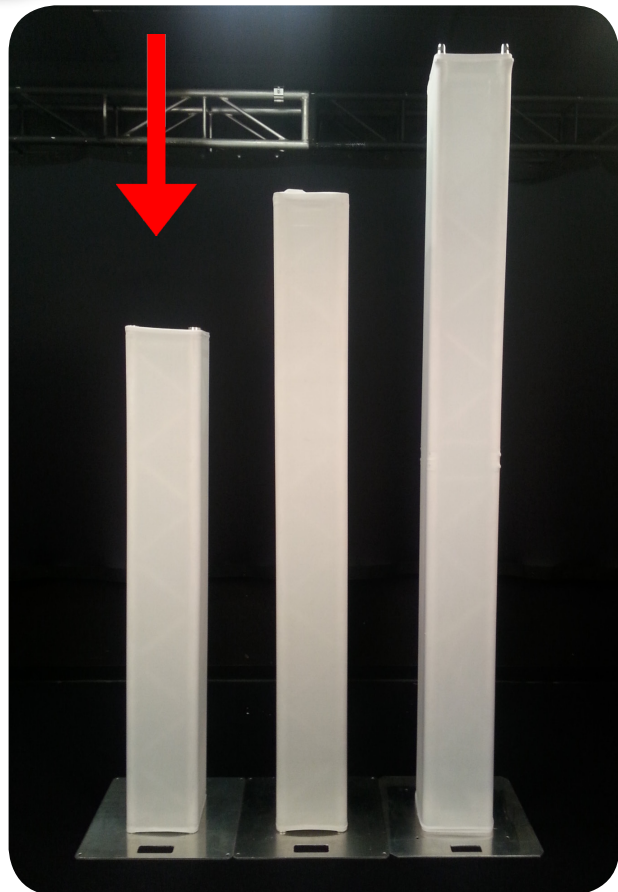

- Fabric truss sleeve designed to fit 2 m TRUSST® sections and standard 12" box truss
- Scrim is made of strong Inherently Flame Resistant (IFR) stretch fabric for long term durability
- Can be washed without needing to be retreated with a fire retardant chemical
- All seams are double stitched for extra strength
- Additional elastic is sewn into the ends to prevent slippage once installed on the truss
- Convenient carry bag included helps make transportation a breeze
