

Glo Totem 2.0

TRUSST® Glo Totems are available in 3 popular sizes, 1.5m, 2.0m, and 2.5m heights. Uses existing TRUSST® conical connections to allow for quick, easy, wobble-free assembly. Aluminum alloy construction allows for durability and strength while still being lightweight, easy to handle, and transport. Bolt holes on top plate allow for secure mounting of lighting fixtures. Add a CHAUVET® light fixture inside the base to create a multitude of exciting lighting effects to enhance the Glo Totem's versatility.
